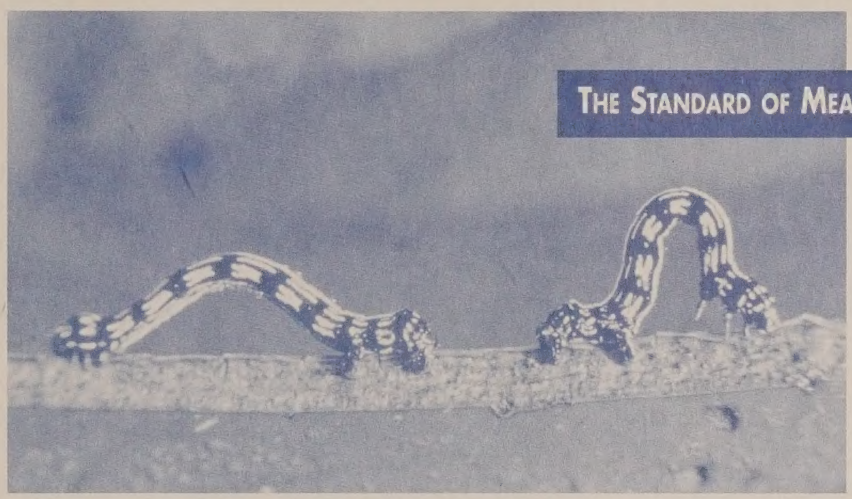
BIOSIS Previews®

Family of Products including Biological Abstracts®



You can find references to life sciences literature in a variety of databases, but one source is indispensable: ***BIOSIS Previews***.

BIOSIS Previews, with its exhaustive review of research literature and comprehensive indexing methods, is the perfect complement to any library collection, and includes:

- An archive of more than 13 million records
- Half a million new records every year
- References to more than 5,000 serials
- Represents more than 100 countries

BIOSIS Previews is the standard by which all other life sciences databases must be judged. Found in corporate and academic libraries around the world, ***BIOSIS Previews*** is the research tool of choice for professionals who need to know about anything in the life sciences, including:

- Researchers
- Librarians
- Information Specialists
- Product development experts
- Competitive intelligence professionals
- Faculty
- Students
- Legal Experts
